

FIRE RETARDANT 50 QUART CONTAINER AND LID

This high-impact polypropylene container can be manufactured with a resin and fire retardant blend to meet the two different test standards often required by area fire marshals.

Details

- Sold in multiples of 100 or 150 units
- FOB Easton, PA
- One-time logo set-up and NO per unit stamping fee.

Features

- Resin blends have been developed and tested by a Certified Lab in accordance with ASTM E1354.
- Specify your requirement for either peak rate heat release not exceeding 300kW/m² or 150 kW/m².
- ASTM Level molded into both the underside of the lid and the bottom of container for an easy check by Fire Marshals.
- Custom stamping area
- Black only
